

Online, Automatic Enrolment ready payroll for small businesses

The issue:

We understand that payroll is not your core business. For the small business keeping up with payroll changes is cumbersome.

KashFlow Payroll is specifically designed to meet the needs of small businesses. We understand that expensive IT systems and support can be a burden for small companies. So we take care of that for you. KashFlow Payroll is our cloud based payroll solution:

- No upfront licence fees
- No installation costs
- No expensive IT intervention
- No need for expensive backup software
- No need to upgrade your software

KashFlow Payroll can be accessed from anywhere with an internet connection. So you can have 24/7 access to your payroll system from anywhere in the world via the web directly to your PC, Mac, Tablet or Mobile.

Simplicity at your finger tips

Payroll is our core business not yours. KashFlow Payroll is specifically designed with the small business in mind. We take care of all the complexities around payroll:

- Calculation of statutory payments
- Email reminders for essential payroll tasks
- Automatic creation of FPS throughout the payroll year
- Joiners and leavers handled seamlessly
- Final submissions processed automatically
- Friendly alerts for missing or required RTI data
- RTI filing logs kept for your peace of mind
- Integration with KashFlow - Posts journals to KashFlow automatically when you finalise your payroll

Employee self service

KashFlow Payroll offers employee self-service. A feature which allows your employees to directly access the system and update their own details to maintain their records with information such as address and bank account numbers. Furthermore, employees can retrieve their own payslips and without incurring

costs to the employer. This is included for no extra cost in the Accountants pricing structure.

Key Points

- Easy to use company, employee and pensions setup wizard
- Automatic Enrolment Ready
- 24/7 access to your payroll data
- Email reminders
- No IT costs, pay monthly
- ESS – online payslips (free with the accountants pricing structure)
- Automated payroll and RTI submissions
- One click integration with KashFlow

Workplace Pension Reform

Automatic Enrolment functionality is now present in KashFlow Payroll. The user can setup a qualifying pension scheme, employees will then be assessed and enrolled where applicable within a single payroll run. KashFlow Payroll will automatically calculate employee and employer contributions, generate required communications for employees and your chosen pension provider.

KashFlow Payroll - Accountants

KashFlow Payroll can be operated as a Bureau. The benefits to using KashFlow Payroll as a bureau to an accountant are as follows:

- Simplifies the payroll process for smaller clients
- Journals, RTI submissions and ESS are all actioned automatically upon finalising the payroll
- Reduces the time spent on payroll due to the above creating processing efficiencies
- Unique pricing structure for accountants
